Charging Your Headset

Connect the USB charging cable to charging socket of the headset. The LED turns red while charging; it will turn off once it is fully charged.

Turning Your Headset On and Off

Turning on the headset

Press and hold the MFB for 3 seconds until a "beep" sound is heard, and the LED flashes blue.
About pairing function, please refer to "Pairing Your Headset ".

Turning Off the headset

Press and hold the MFB for approximately 5 seconds until you see the LED flash red and turn off.
Attention: If you will not using the headset for a while, you should consider turning off the Bluetooth function on your mobile phone as well.

Pairing Your Headset

The headset works with Bluetooth-enabled phones, prior to using and pairing your headset for the first time, please check if your mobile phone is Bluetooth-enabled. The pairing instructions for typical Bluetooth-enabled mobile phone are explained on the next page. The headset pairing procedure may vary depending on the setting of your mobile phone. Please contact the manufacturer of your mobile phone or its agent for further information.

Pairing Your Headset

1. Place the headset and the mobile phone where they are easily viewable and no more than one meter apart.
2. Ensure the headset is turned off.
3. Press and hold the MFB for 6 seconds until the LED flashes red and blue alternatively, and "beep" sounds are heard.
4. Activate your mobile phones' Bluetooth function; please refer to your mobile phone user guide for details.
5. Set the mobile phone to search for Bluetooth devices within range and select PHBT5 from the list of devices shown.
6. Enter pass code "0000" and press "OK" to pair your headset with mobile phone, when the pairing is completed, the LED will flash blue regularly and the headset in standby mode.
7. Go back to your mobile phone's main menu.
The headset will be connected with the mobile phone automatically when some mobile phones are re-started.

Answering / Rejecting call

When a call is coming, the ring tone will be heard by headset, press the MFB once to accept the call or answer the call via your mobile phone in normal way.
Hold the MFB for 2 seconds to reject the incoming call.

Ending a call

While speaking, press the MFB once to end the call or end the call via your mobile phone in normal way.

Voice Dialling from Your Headset

If your mobile phone is equipped with voice dialing function, simply press the MFB for 1 second, and please say the voice tag according to mobile phone tips.
Attention: For voice dialing, you must record the voice tag (the person name) into your mobile phone prior to using the voice dialing function on the headset, please refer to your mobile phone 's user guide on how to record the voice tag.

Last Number Re-dialing From Your Headset

In standby status, double press the MFB on your headset.
IMPORTANT: The above function is only applicable to mobile phone with Bluetooth hands free profile. Functionality varies depends on the mobile phone model you have. Please refer to your mobile phone user guide for additional information.

Adjusting the Volume

When you are on the phone or listen to the music, press the volume button repeated until you reach the desired volume level.

Play / Pause Music

When the headset was connected with USB Dongle or stereo mobile phone, press the Play/ Pause key to Play/ Pause Music.

Next / Last Track Key

During music play, press the Next / Last Track key to select a next / last track.

Transferring a Call

While speaking, hold the MFB for 2 seconds and release to transfer a call from your headset to your mobile phone (Please check if your mobile phone has this function), repeat the above procedure to transfer the call from your mobile phone to your headset.

Connect with the Last Paired Device

The headset will connect with the last paired mobile phone, if the pairing is successful, the status indicator will flash blue every 4 seconds and in standby mode, if the pairing cannot be completed within 5 minutes after the pairing mode has been activated, the headset will turn off automatically.

COOL FUNCTIONS

1) PHBT5 can be paired with two mobile phones at the same time.
If PHBT5 was previously paired to one mobile phone, it is possible to be paired with a 2nd mobile phone: restart PHBT5 (switch off and switch on) to enter pairing mode; repeat the above pairing procedure to pair PHBT5 with the 2nd mobile phone; and then reconnect PHBT5 with 1st mobile phone; finally two mobile phones connect with PHBT5 successfully.
2) If PHBT5 connects with your iPhone, you can see the battery meter automatically display on the status bar, so you can know better when PHBT5 should be charged.

Troubleshooting

If you are unable to connect your headset and your mobile phone, please try the following:

- Ensure your headset is turned off and is properly charged.
- Ensure the headset is paired with your mobile phone.
- Ensure your mobile phone's Bluetooth feature is activated. Please refer to your mobile phone user guide for specific instruction.
- Ensure the headset is within a 10 meter range of your mobile phone and there are no obstructions, such as walls or other electronic devices in between.

If the above steps do not solve your problem, please recharge the headset and remove your mobile phone battery for a short time.

Safety Information

Check local laws regarding the use of mobile phones and headsets while driving. If you use the headset while driving, ensure your attention and focus remains on the road and you drive in a responsible and safe manner.

- Never allow children to play with the headset small parts may be a choking hazard.
- Observe all signs that require an electrical device or RF radio products to be switched off in designated areas. These could include hospitals, blasting areas, and potentially explosive environments.
- Turn off your headset prior to boarding an aircraft. Do not use your headset in an aircraft.

Never mount or store your headset over any air bag development area as serious injury may result when the air bag deploys.

- Do not open or mutilate the built-in battery.
- Dispose of batteries according to local regulations. Do not dispose as household waste.

Care and Maintenance Headset

Consider turning your headset off before placing it in your pocket or bag .If the MFB is accidentally activated. Your mobile phone may place an unintended call.

- Do not expose the headset to liquid, moisture or humidity, as it is not waterproof.
- Do not use abrasive cleaning solvents to clean the headset.
- Do not expose the headset to extreme temperature conditions .The best store temperature range is from: 0 to + 60, otherwise the life of the headset will be influenced.Do not dispose the headset of a fire as this may result in an explosive.
- Do not bring your headset into contact with sharp objects as this will cause scratched and damage.
- Do not attempt to disassemble the headset, as it does not contain serviceable components.
- If you do not use the headset for long periods, be sure to store it in a dry place, free from extreme temperature conditions and dust.

Charging

- Incorrect reasesmbly can cause electronic shock when the headset is subsequently used.
- Only charge the headset's built-n battery in accordance with the instructions contained in the user guide.
- Avoid charging the headset in extreme temperature conditions.

Built-in Battery

- Do not attempt to replace the headset's battery yourself as it is built into the headset and is non-rechargeable.
- Charge the battery in accordance with the instructions supplied with this user guide.

Compatibility
